ABOUT US

GreenCo ESG Advisory Limited has been focusing on ESG reporting and sustainability advisory since 2015/2016. We have been members of sustainability associations such as GRI Community and Business Environment Council for years, and our professional consulting group is committed to designing and producing tailor-made ESG advisory services.

CORE SERVICES

- ✓ ESG Reporting
- ✓ ESG Training
- ✓ ESG Rating & Benchmarking
- ✓ ESG Policy Development
- ✓ ESG Target-Setting Advisory

As the HKEx mandated the integration of sound corporate governance and ESG policies into the IPO process in its [IPO guidance letter](#) updated in July 2020, the building of a compliance-oriented and purpose-led ESG mechanism should start ahead of any listing.

During IPO preparation, GreenCo's ESG expertise and experience can add value on establishing an internal ESG system, streamline management strategy and beyond IPO process, facilitate continuous improvement in line with global sustainability.

IPO
